Dear Mike,

Maybe someone will know the origin or repository for these.

The location in Lawrence Co. AR was Cloverbend, not Cloverland. In the letter of 1855, Sarah Ann Terry did marry her "little George" but it was seven years before she married George Von Felster. Lydia did not marry Henry Ruffner. She md. Stephen Bush.

These are the most precious item I have found in my 25 years of research. I hope all Terry researchers enjoy them.

These were supposed to be in the Indiana Archives. I could not locate them there or at the Historical Soc.
